Modular tandem kayaks fit into most compact cars

The KingFisher modular angler kayak

Why not a 100-person kayak!

More adventure - great for boaters

Tandem paddling - twice the fun!

MODULAR KAYAKS

Point 65 Sweden presents the modular Falcon Solo, Tandem, Triple - and more...

Introducing the modular take-apart Falcon. A fun, versatile, high-performance sit-on-top kayak which, due to its modularity, is exceptionally easy to carry, store and haul. The revolutionary, patented Solo-Tandem-or-more combination is the solution you were waiting for.

Go solo, go tandem, go triple – keep going
Snap in the mid-section and your Solo transforms into a high-performance Tandem. Add another mid-section and it's a triple. Keep adding mid-sections and create the perfect team building tool for as many paddlers as you want.

Performance kayaking

The Falcon, made in durable HTP (High Performance Thermoplastic), is easy to handle in and out of the water. With Point 65's innovative Snap-Tap system, the Falcon snaps apart and reassembles in seconds for a kayak that is comfortable, stable, strong and, due to its modularity, extremely easy to carry. The Falcon is a rigid, high-performance kayak that you can carry

with a smile on your face, put into the trunk of your car and store under your bed.

Comfort and ease

The Falcon features a comfortable seat, cup holders, contoured foot braces and space for your dry bag for safe storage on your next adventure. It features an ingenious foldable backrest front and middle quick lock hatches for easy access to your gear, as well as front and back tank wells with bungees. You have the option of going paddling alone or with a friend – all in one kayak. With a second mid-section between two paddlers, you create additional storage space.

Easy to own

The Falcon Tandem easily fits into the back of a Toyota Prius. So, no roof rack, no lifting and no gas mileage to boot. It fits into a small elevator, under your bed or in your closet! Never before has a kayak been so much fun and so easy to own.

Features Falcon

- Affordable
- Strong & durable 1-layer HTP
- Great tracking & performance
- Recessed tank wells aft and front for gear
- Quick lock Hatches in front and mid sections
- Take apart for easy storage
- Snap-Tap take apart system
- Solo or Tandem combination
- Padded back pads
- Integrated cup holders

Mojito Solo

Mojito Tandem

Introducing the brand new Mojito!

The Mojito offers a new level of innovation for recreational kayaks. Created by design engineer Magnus de Brito, the Mojito is a contemporary, high-performance modular sit-on-top kayak. A fun and versatile kayak which is exceptionally easy to carry, store, and haul. Point 65's revolutionary solo/tandem combination is an amazing and unique selling point.

Performance kayaking

With its keel rudder and easy to adjust rudder pedals, the Mojito tracks straight as an arrow and is a breeze to manoeuvre. Point 65's innovative patented Snap-Tap solution allows the single seater to snap apart and re-assemble in seconds. The Mojito is a rigid high-performance kayak that you can carry with a smile on your face, put inside most cars, and store under your bed.

Solo or tandem - all in one

No need to buy two kayaks. Snap in the mid-section and your single seater is transformed into a high-performance tandem. Never before has a kayak been so much fun and easy to own.

Ultimate seat comfort

The Mojito is equipped with a super-comfortable padded seat and backrest which folds down for easy transport. The seat covers are made of highly durable and comfortable, honey-comb patterned material in combination with a mesh fabric which is laminated and molded over sculptured EVA foam.

More features

The Mojito is equipped with round 24cm water proof rubber hatches front and aft, multiple cup/bottle holders, aluminum rails for attachment of gear such as GPS, GoPros and fishing gear.

Get in and go

Carrying and hauling, going solo or tandem, the Mojito has the innovative features to keep everyone smiling. So easy to set up and go, you'll be having a blast right off the beach.

Martini GTX Solo

Martini GTX Tandem

The Martini GTX!

The Martini GTX is a decked, take-apart, touring kayak with a roomy and comfortable cockpit to explore with and then take back home in the back of your car. Like the sit-on-top version, the Martini GTX features the innovative patented Snap-Tap solution. Created by award-winning design engineer Magnus de Brito, the Martini is a fun, versatile and high-performance recreational kayak.

Performance kayaking

The Martini GTX is a nimble, fun, comfortable and stable kayak that snaps apart and re-assembles in seconds making it by far the most easy to carry.

The Martini GTX is a rigid high-performance day-touring kayak that you can lift with a smile on your face, haul in the back of most cars, fit in the elevator and stow under your bed.

Solo or tandem - all in one

No need to buy two kayaks. Snap in the mid-section and your solo is transformed into a high-performance tandem, so you can bring a friend. Never before has a kayak been so much fun and so easy to own.

Ultimate seat comfort

The Martini GTX is equipped with an extremely comfortable AIR seat. The AIR seat, with a pneumatically adjustable backrest, gives the paddler an extremely comfortable and perfectly adjustable seating position. The seat covers are made of highly durable and comfortable, honey-comb patterned material in combination with mesh-like fabric which is laminated and molded over

EVA foam. It is equipped with an ergonomically designed seat, backrest and foot braces, which provide for good leg support and a comfortable paddling position. Add the fitted spray cover and you can enjoy a dry ride even in rough conditions.

Mercury GTX Solo - Tandem hybrid, as easy as one, two, three!

Following the success of Point 65's modular recreational kayaks comes the expedition version. The Point 65 Mercury GTX is a

high-performance, stable, decked, modular touring kayak with a large cockpit in which to explore and then take back home inside most cars. Like the recreational versions, the Mercury GTX features the patented, innovative Snap-Tap solution.

The 415cm / 13'7" Mercury GTX Solo breaks apart into three manageable sections, each weighing less than 11kg / 24,3 lbs. The 100cm / 39" nose section fits snugly into the mid-sections' cockpit allowing easy storage in the back of your car. With an additional mid-section your Mercury Solo is transformed into a 545cm / 17'10" high-performance, expedition tandem. Created by Magnus de Brito, award-winning design engineer, the Mercury is a fun, versatile, high-performance touring kayak.

Performance kayaking

The Mercury GTX is a fast and fun, comfortably stable and straight tracking kayak that snaps apart and reassembles in only a few seconds making it by far the most easy to carry touring kayak. The rotomolded polyethylene construction provides a combination of strength and impact resistance that most other materials can't match.

It has lots of dry storage space with powder dry hatches front and aft. The Mercury GTX is a rigid, high-performance, expedition, solo/tandem touring kayak that you can lift with a smile on your face, haul in most cars,

Ultimate seat comfort

The Mercury GTX is equipped with an extremely comfortable AIR seat. The AIR seat, with a pneumatically adjustable backrest, gives the paddler an extremely comfortable and perfectly adjustable seating position.

The seat covers are made of highly durable and comfortable, honey-comb patterned material in combination with mesh-like fabric which is laminated and molded over EVA foam.

KingFisher –a modular, fishing kayak from Point 65!

The purpose made modular KingFisher solves the major drawbacks of other fishing kayaks:

1. *Extremely heavy and cumbersome to carry and transport.*
2. *Slow and awkward to paddle due to hull-width.*

Maverick Swedish kayak designer Magnus De Brito worked the problems and found the solutions!

Stability and performance

The KingFisher is probably the most stable fishing kayak you've ever been in. Astonishing, considering its sleek 31.1" (79cm) beam. Most fishing kayaks are 35" (90cm) wide. The KingFisher is more than just stable – it's incredibly well balanced. Standing up to fish from it, is a walk in the park. When paddling, you'll instantly notice its great speed and straight tracking capabilities. And its unique, hand-controlled, double-sided rudders make it exceptionally easy to maneuver and turn.

–How is all this possible? The skilfully designed trimaran hull gives the KingFisher its solid stability, lightning speed and straight-as-an-arrow tracking power!

Portability

Another great challenge was solving the weight problem. If you've ever tried heaving a fishing kayak up onto the roof of your car, you know the feeling. They are just too heavy and cumbersome. Until now. Point 65's proven, patented, Snap-Tap modular system, allows the kayak to snap apart into two, manageable sections that fit inside most cars. The process of snapping it apart takes only a couple of seconds. Assembly is just as quick and easy. The Point 65 modular Snap-Tap system, introduced in 2009, has been successfully applied to a number of Point 65 kayak models and sold in the tens of thousands all around the world by some of the most reputable outdoor and paddle sport-retailers –Already a proven success!

Carrying half a kayak is twice as easy –and it fits inside most cars. Not only that, you can store it under your bed, get it upstairs in the elevator, and even check it in when flying.

Can it get any better?

Your KingFisher is already extremely stable, fast, straight tracking, agile, easy to carry, transport and store –all using proven technology.

Is there more?

Yes! The KingFisher also features a huge carrying capacity with the ability to take a full load of gear, provisions and any size of paddler.

The KingFisher Game Chair

Featuring one of the most comfortable seats on the kayak fishing market, the KingFisher Game Chair offers a variety of settings to give you a comfortable and effective paddling position.

The super comfy KingFisher Game Chair, in combination with the kayak's world class stability, speed, and logical accessory positioning, makes the KingFisher a great platform for fishing of all kinds and a serious fishing machine in all water types.

Powered by arms, legs or motor

While the KingFisher's sleek trimaran hull is easily propelled by traditional paddle strokes and using the good old double-bladed kayak paddle is still an extremely effective way of moving across great expanses of rough water, you might want your arms and hands free for fishing.

Legs –The Impulse Drive pedal system

The optional Impulse Drive is a revolutionary pedal-drive system designed around a very simple premise: if a product is designed to be used in the water it should be 100% corrosion proof. Featuring a high performance encased shaft drive design, that is immune to water damage, the Impulse Drive will not corrode or degrade in water. Not only does this design dramatically reduce wear but it also provides a high performance system that is 100% user serviceable. The Impulse Drive is incredibly versatile for the retailer and end user.

Electricity

The KingFisher is prepared for mounting of electric motor drives either on the back deck, or the side rails. There are numerous suppliers of electric trolling motors to choose from for speedier, more extended, and effortless fishing.

Mojito Angler Solo

Mojito Angler Tandem

Versatile 330cm/11ft kayak fishing!

The Mojito Angler is a modular fishing kayak that you can carry with a smile on your face, transport in the back of most cars and store under your bed. With the patented Snap-Tap system the Mojito Angler snaps apart into manageable sections and re-assembles in seconds. The Mojito Angler is a safe, stable, and strong fishing kayak. This 330cm/11ft boat sports a 150kg/330-pound weight capacity, yet due to its keel rudder it tracks straight as an arrow.

Solo/tandem fishing kayak all in one!

Snap in the mid-section and your Mojito Angler Solo is transformed into a 480cm/16ft high-performance tandem. Add a second mid-section and you have lots of carrying capacity and room for a huge catch and for whatever fishing gear you want to bring. Or for a third paddler.

Equipped for fishing

The Mojito Angler is packed with "must have" features which kayak anglers demand. From lakes and rivers to the open ocean, this boat has no boundaries. The solo and the tandem alike come equipped with rod holders. Two of which are integrated, flush-mounted behind the seat and one is on a ball mount which slides into the aluminum rail in front of the paddler. This deck mounted rod holder can be removed and replaced with any compatible hardware of your liking.

Ultimate seat comfort

The Mojito is equipped with a super-comfortable padded seat and backrest, which folds down for easy transport. The seat covers are made of highly durable and comfortable,

honey-comb patterned material in combination with a mesh fabric which is laminated and molded over sculptured EVA foam.

More features

The Mojito Angler is equipped with round 24cm water proof rubber hatches front and aft, multiple cup/bottle holders, aluminum rails for attachment of GPS, GoPros etc. Easy to adjust rudder pedals connect with the ultra efficient keel rudder to get you into that perfect fishing spot.

Martini GTX Angler Tandem

Martini GTX Angler Solo

The most versatile, decked, fishing kayak out there!

The Martini GTX Angler is a modular sit-inside fishing kayak that you can carry with a smile on your face, transport in the back of most cars and store under your bed. With the patented Snap-Tap system, the Martini GTX Angler snaps apart into manageable sections and re-assembles in seconds.

The Martini GTX Angler is a safe, stable, and strong fishing kayak. This 10-foot boat sports a 300-pound weight capacity.

Solo/tandem fishing kayak all in one!

Snap in the mid-section and your Martini GTX Angler Solo is transformed into a 14 foot high-performance tandem. Add a second mid-section and you have lots of carrying capacity and room for whatever fishing gear you want to bring, or for a third paddler.

Equipped for fishing

The Martini GTX Angler is packed with "must have" features that kayak anglers demand. From lakes, to rivers, to the open ocean, this boat has no boundaries. The solo and the mid-section alike come equipped with rod holders. Two of these are integrated, flush-mounted behind the seat and one is on a deck mount in front of the paddler. This deck mounted rod holder can be removed and replaced with any compatible hard-ware of your liking. In addition, the Martini GTX Angler Solo is equipped with an additional deck mounts to enable the owner to add more rod holders or other equipment. Two large hatches offer dry storage for plenty of gear. The Martini Angler features a fish-o-meter on the side of the boat so you can measure your catch.

Ultimate seat comfort

By using a spray deck around the cockpit the paddler can experience a comfortable dry ride.

The Martini GTX Angler is also equipped with a super comfortable AIR seat. The AIR seat, with a pneumatically adjustable backrest, gives the paddler an extremely comfortable and perfectly adjustable seating position.

The seat covers are made of highly durable, comfortable, honey-comb patterned material in combination with mesh-like fabric which is laminated and molded over EVA foam. If you are looking for an extremely versatile fishing kayak that is easy to carry, store and transport – this is it!

REGULAR KAYAKS

Touring made faster

Faster. More stable. A lean, mean, touring machine, the Bourbon 17 is the first of a new series of touring kayaks with exceptional glide, consuming mile after mile with little effort.

The increase of both speed and stability makes the Bourbon 17 truly unique.

The Bourbon 17 is a very fast touring kayak with the aggressive appearance of an adventure racing craft – and the performance to match. Using highly advanced hydrodynamic design technology, and made in 3-layer ultra tough HDPE, the Bourbon 17 has a striking stability, maneuverability and speed.

Great primary and secondary stability offers beginners and expedition paddlers alike a fast ride, even in the most challenging conditions. Your heaviest gear will barely slow it down – this is an ideal expedition kayak. The Bourbon 17's maneuverability is unparalleled among touring kayaks with super responsive steering through its unique keel rudder. The rudder is handy when winds and currents are working against you. The Bourbon 17 comes fully equipped featuring a large aft oval hatch, an easily accessible 20cm day hatch and a huge storage compartment at the front. The Bourbon 17 comes fully equipped featuring a large aft oval hatch, an easily accessible 20cm day hatch and a huge storage compartment at the front. It also features the

super-comfy AIR GTX backrest and adjustable Rudder pedals as well a bottle holder, padded thigh braces and an ergonomically designed seat equipped with a soft, comfortable seat pad.

The cockpit is long and wide for achieving

Whisky 16 ROCKER

Nigel Foster

Equipped with
AIR
Ultra Comfort Technology

3-layer
Performance Technology

SYMMETRY
SKEG SYSTEM

Whisky 16 Rocker

By Nigel Foster, for Nigel Foster.

The Whisky 16 Rocker is the ultimate playboat in 3-layer ultra tough Polyethylene, designed by Nigel Foster, for ultra precise handling and maneuverability. Even so, an absolute novice feels like Nigel Foster in the cockpit of a Whisky 16. On gentle waters the boat is comfortable, stable, and easily maneuvered – an ideal boat to develop skills.

For the experienced paddler the Whisky 16 Rocker is perfect for getting in and out of rocky outcrops, surfing on tidal races or maneuvering. With its fuller bow and stern shape to reduce plunging, the Whisky 16 is designed to make the most of rough water, surf, and currents. It is perfect for day trips but spacious enough for a self-contained expedition paddling.

The Whisky 16 Rocker has a more distinctive Rocker (the hull has a distinctive banana shape) compared to the Whisky 16 Tourer. The Rocker makes it more manoeuvrable and nimble which is great when paddling in waves and surf and going in and out of rock gardens along the coast for fun and Rock hopping. The Tourer on the other hand has a lower Rocker (the hull is more flat) which gives the kayak more speed and tracking which is ideal for touring.

The 3-layer PE construction gives the Whisky 16 stiffness and strength while decreasing the weight. The Whisky 16 has two large oval aft and bow hatches, a large round day hatch behind the cockpit for access to items while on the water, and the Whisky hatch, a smaller round hatch in front of the key-hole cockpit that opens to an under-deck compartment.

"A surfing machine"

"A kayaker's kayak"

"A fantastic touring machine"

"Rocks, waves, current; bring it on!"

"...a fantastic kayak for skilled paddlers looking for fun."

"Its speed and agility will make you the envy of other paddlers"

"It accelerates like lightning, making it a breeze to catch waves."

- Sea Kayaker Magazine, Oct 2013

Features Whisky 16 Rocker

- Very stable open water kayak
- Extremely maneuverable
- Suitable for both beginners and experts
- Extra hatch in front of cockpit
- Key hole cockpit
- Design by Nigel Foster

Whisky 16 Rocker Skieg specific features:

- 3-Layer rotomolded (PE) with an ultra durable PE for a stiffer and lighter hull
- Footrests
- AIR backrest for adjustable position and comfort

Whisky 16 Rocker Rudder & Skieg specific features:

- 3-Layer rotomolded (PE) with an ultra durable PE for a stiffer and lighter hull
- Performance backrest & seat
- Lifiable rudder
- Easy-adjust rudder pedals with mini-line lockers

Whisky 16 Tourer

By Nigel Foster, for Nigel Foster.

Introduced in 2016, the Whisky 16 Tourer in 3-layer ultra tough Polyethylene, is designed by Nigel Foster, to be everything he looks for in a kayak - and more. All you have to do is to try it - and you're hooked. Even an absolute novice feels like Nigel Foster in the cockpit of a Whisky 16. On gentle waters the boat is comfortable, stable, and easily maneuvered - an ideal boat to develop skills.

With its fuller bow and stern shape to reduce plunging, the Whisky 16 Tourer is designed to make the most of rough water, surf, and currents. It is perfect for day trips but spacious enough for a self-contained expedition paddling. The 3-layer PE construction gives the Whisky 16 stiffness and strength while decreasing the weight.

The Whisky 16 Tourer has a lower Rocker (the hull with less curve on the hull) compared to the Whisky 16 Rocker. This gives the kayak more speed and tracking which is ideal for touring or longer paddle expeditions. The Rocker on the other hand has a more pronounced Rocker (the hull is more banana shaped) which makes the kayak more maneuverable and nimble which is ideal for playing in surf or for rock hopping.

The Whisky 16 Tourer features a medium large open cockpit and has two large oval aft and bow hatches, a large round day hatch behind the cockpit for access to items while on the water, and the Whisky hatch, a smaller round hatch in front of the cockpit that opens to an under-deck compartment.

"A surfing machine"
"A kayaker's kayak"
"A fantastic touring machine"
"Rocks, waves, current; bring it on!"

"...a fantastic kayak for skilled paddlers looking for fun."
"Its speed and agility will make you the envy of other paddlers"
"It accelerates like lightning, making it a breeze to catch waves."

- Sea Kayaker Magazine, Oct 2013

Features Whisky 16 Tourer

- Very stable open water kayak
- Very maneuverable
- Suitable for both beginners and experts
- Extra hatch in front of cockpit
- Design by Nigel Foster

Whisky 16 Tourer Skag specific features:

SeaCruiser Rudder & Skeg

Discover SeaCruiser – tell better stories.

Point 65's best-selling touring boat is a multi-talented kayak that is bold in appearance as well as performance. Entry-level paddlers feel immediately comfortable with its stability, and advanced paddlers appreciate the superior performance and cruising capabilities.

The SeaCruiser can hold enough gear for extensive expeditions. It comes with a fully retractable skeg, an exclusive extra day hatch, innovative foot braces, and also includes the AIR seat which allows for maximum comfort and fit by inflating built in air bags with easy-to-use hand pumps. It tracks straight as an arrow with great glide and speed, keeping you dry even in rough seas.

A slightly v-shaped hull makes it easy to maneuver and fun to play with, and the tough 3-layer polyethylene construction makes it both light and extremely strong and impact-resistant. Whether the waters are calm or rough, the SeaCruiser delivers a thrilling performance.

"In rougher conditions, more experienced paddlers will enjoy paddling the Sea Cruiser and find it lively and fun"

- Ocean Paddler Magazine

Features SeaCruiser

- Strong, stiff and durable 3-Layer PE (polyethylene)
- A performance Sea Kayak for beginners and experienced paddlers

SeaCruiser GTE Skeg specific features:

- Kink-free Symmetry skeg system with precision adjustment from cockpit
- Foot rests with precision adjustment
- Comfort seat with vertically adjustable backrest with sculptured padding on seat, back and hips for increased grip

XO17

Double Happiness

Why do our customers love the XO-series? Partly for their looks. We have yet to find a better-looking 518 cm / 17' tandem kayak. They also love the XO-series' performance – the XO17 Tandem is probably the best performing boat in its class on the market today.

The XO17 is prepared with rudder sleeve in the back and rudder line tubes drawn into the cockpit to enable easy conversion into a rudder kayak. The cockpits include comfortable seats with adjustable backrests and thigh braces.

A great recreational kayak for day excursions, fishing, photographing, and just having fun, there is a perfect XO17 for everyone. The cockpit, designed for easy entry/exit, is large enough to suit all types of paddlers. The ergonomically designed seat provides leg support and a comfortable paddling position. Great looks, superb handling.

XO16

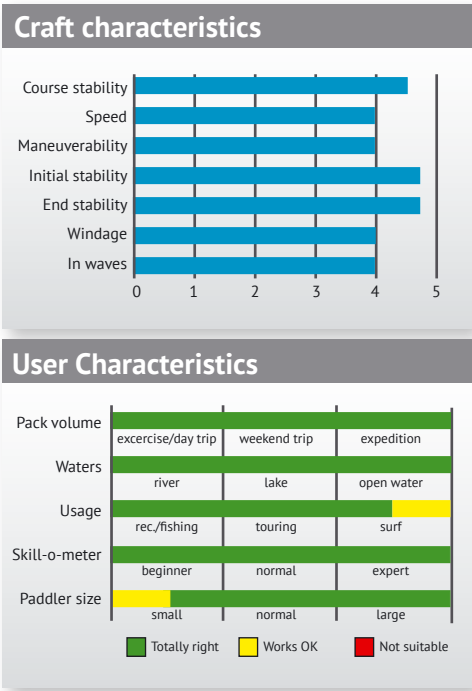

A touring kayak for excursions

XO16 is manufactured of single-layer HDPE material, making it stiffer and lighter compared to similar high-performance touring 488cm/16 kayaks. Paddlers appreciate the touring performance and easy handling out of the water.

The XO16 is designed for beginning and medium-level paddlers seeking affordable quality touring, and it is the first choice for outfitters and kayak schools. The XO16 is equipped with foot pegs and a comfortable backrest and dry hatches fore and aft as well as a day hatch within easy reach in front of the paddler. An optional rudder and can be installed including Rudder pedals which will make it even more attractive when it is time to exchange the rental fleet. The cockpit, designed for easy entry/exit, is large enough to suit all types of paddlers. The ergonomically designed seat provides leg support and a comfortable paddling position.

PUNCH DUO

The Punch Duo sit-on-top kayak

The Punch Duo offers a new level of innovation for rental sit-on-top kayaks. A fun and versatile kayak which is easy to carry and paddle.

Performance kayaking

With its protected keel plate fin the Punch Duo tracks straight as an arrow and is a breeze to maneuver.

Ultimate seat comfort

The Punch Duo is equipped with super-comfortable seats and backrests which fold down for easy storage on the KAYAKOMAT rack. Each seat has a built-in cup holder as well as a day hatch compartment for dry storage of small items.

Double child seat

The Punch Duo is designed with an elongated jockey seat between the front and aft seat which can fit up to two children which allows the whole family to go out and explore the waters.

The Punch Duo features cargo areas front

and aft as well as multiple scuppers in the cockpit and cargo recesses. The Punch Duo is also stackable and features keel plate at the back of the hull for protection which doubles as fin for improved tracking.

Features Punch Duo

- Strong & durable 1-layer PE (polyethylene)
- Jockey seats between cockpits for one youth or two small children
- 15cm day hatch in front of each seat
- Recessed cup holder in front of each seat
- Front and rear cargo areas with bungees
- Drainage in storage and foot wells
- Ultra comfortable seat & foldable back rest
- Multiple grab handles for easy carrying
- Keel plate
- Stackable design
- Locking pins front and aft

PADDLES

Nigel Foster

This super light paddle, designed by the legendary Nigel Foster, is the paddle for ultra-precise maneuvering. The smooth face and back design of the foam-filled blade are instrumental for precision and control.

Weight: 790g

Material:

2-piece Shaft, adjustable angle & length, fiberglass, foam-core blade, carbon shaft

Available adjustable length: 205-215cm

Nigel Foster AIR

The Nigel Foster AIR is even lighter and built to perfection. Made specifically for paddlers with the highest demands on quality and weight. You can't find a better built product.

Weight: 690g

Material:

2-piece shaft, adjustable angle & length, carbon foam-core blade, carbon shaft

Available adjustable length: 205-215cm

Point 65 Grand Tourer

The Grand Tourer is produced by vacuum-molded, fiberglass and pigmented injected epoxy. The medium-sized elongated touring blade offers a perfect combination for paddlers who like a soft but firm grip in the water, with lower windage.

Weight: 840g

Material:

2-piece Shaft, adjustable angle & length, fiberglass foam-core blade, fiberglass shaft

Available adjustable length: 220-230cm

Point 65 Grand Tourer Carbon

The Grand Tourer Carbon is produced in a high pressure vacuum-molding machine injectioned with epoxy. The result is a strong, and stiff blade with a lightweight foam core.

Weight: 720g

Material:

2-piece shaft, adjustable angle & length, carbon foam-core blade, carbon shaft

Available adjustable length: 220 - 230cm

Point 65 Super Tourer

The Super Tourer is produced by vacuum-molded, fiberglass and pigmented injectioned epoxy. The Super Tourer is perfect for paddlers who are looking for a slimmer and smaller blade for a comfortable Touring experience.

Weight: 830g

Material:

2-piece Shaft, adjustable angle & length, fiberglass foam-core blade, fiberglass shaft

Available adjustable length: 220-230cm

Point 65 Super Tourer Carbon

The Super Tourer Carbon is produced in a high pressure vacuum-molding machine injectioned with epoxy. The result is a strong, and stiff blade with a lightweight foam core.

Weight: 709g

Material:

2-piece shaft, adjustable angle & length, carbon foam-core blade, carbon shaft

Available adjustable length: 220 - 230cm

Point 65 Easy Tourer Vario

While the aluminum shaft and glass reinforced nylon blades are very durable, the paddle is surprisingly lightweight. The adjustable shaft allows for maximum flexibility in adjustability on the blade angle and length from 220 -240cm.

Weight: 1.130g

Material: 2-piece aluminum shaft, adjustable angle & length, glass reinforced nylon blades

Adjustable length: 220-240cm

Point 65 Easy Tourer GS Vario

With its fiberglass shaft and carbon reinforced nylon blades, it is an upgrade which gives an even lighter, stronger and stiffer paddle at incredible value. The adjustable shaft allows for maximum flexibility in adjustability on the blade angle and length from 220 -240cm.

Weight: 992g

Material: 2-piece fibre-glass shaft, adjustable angle & length, carbon reinforced nylon blades

Adjustable length: 220-240cm

Adventure Tourer Vario

This model has a shorter, medium-sized paddle shape for higher, more powerful paddle strokes. The adjustable shaft allows for maximum flexibility in adjustability on the blade angle and length from 220 -240cm.

Weight: 1,130g

Material: 2-piece aluminum shaft, adjustable angle & length, glass reinforced nylon blades

Adjustable length: 220-240cm

Adventure Tourer GS Vario

With its fiberglass shaft and carbon reinforced nylon blades, it is an upgrade which gives an even lighter, stronger and stiffer paddle at incredible value. The adjustable shaft allows for maximum flexibility in adjustability on the blade angle and length from 220 -240cm.

Weight: 992g

Material: 2-piece fibre-glass shaft, adjustable angle & length, carbon reinforced nylon blades

Adjustable length: 220-240cm

Easy Tourer Basic

Extremely light with an aluminum shaft and nylon blades it is very durable,.

Weight: 1.130g

Material: 2-piece aluminum shaft, adjustable angle, nylon blades

Available lengths: 220cm, 230cm

Point 65 Junior Tourer

This model has a shorter, small-sized paddle shape for Junior paddlers. Surprisingly light and sturdy.

Weight: 1,130g

Material:

2-piece aluminum shaft, adjustable angle, glass reinforced nylon blades

Available length: 160cm

Point 65 Vario ferrule system

All Point 65 paddles, (except Easy Tourer Basic and Junior Tourer) are standard equipped with the Vario ferrule system which allows for seamless adjustment on the paddles length and angle for maximum customisation and minimum effort.

ACCESSORIES

Nigel Foster Explorer II

This PFD is designed by Nigel Foster for comfort, versatility and performance even in the most difficult waters. All materials have been carefully chosen for the highest quality. The rugged Cordura shell provides extreme durability and strength.

Two bellowed pockets are equipped with strong velcro and sturdy buckles, while the third pocket is zippered along the side for easy access to smaller items. D-rings are fitted inside all pockets to secure cameras and cell-phones. The left-hand pocket is large enough to fit a towing line. Loops and pockets are designed to fit a towing belt. Reflective piping is fitted on the front and back to enhance visibility on the water. The back is fitted with loops for securing a waterbag and the lower belt and shoulders are lined with neoprene for ultimate comfort.

Available colors: Red & Mango

Available Sizes: S, M/L, XL

Nigel Foster EXPLORER II

Mango

Red

Point 65 Paddle Leash

Don't lose your paddle!

This basic safety product will ensure that you keep your paddle at hand at all times. The coiled elastic bungee is fastened with a high quality snap hook to your PFD, while the other end has a swivel snap hook which avoids the leash from tangling itself if rotated. Choose between 5 colors, from High-Viz lime & orange to dark green.

Point 65 Spray decks & transport decks

Point 65 offers 3 styles of decks ranging from the simple tough Nylon deck "Storm" to an even tougher deck "Ocean" with straps and reinforcement.

Point 65 Kayak Trolley

Instead of carrying the kayak, wheel it!

Durable high-quality aluminum construction. The cart can be folded, the foam-filled wheels easily taken off, and easily stowed. Fits through a 7.5" / 19cm deck hatch, weight 4lbs / 1.8 kg, loading capacity app. 90lbs / 40 kg

The Point 65 AIR seat - you'll never want to leave the cockpit...

The AIR seat is now available for all Point 65 Kayak models! The ergonomically designed Point 65 AIR seat with pneumatically adjustable leg-lifter, hip pads and backrest was first introduced for the XO GTE models and has gradually been extended to all of our models! The AIR seat technology gives you an extremely comfortable and perfectly adjustable seating position.

The seat covers are made of highly durable, comfortable, dark gray, honeycomb patterned 4-way stretch Ripstop and a mesh-like fabric

which is laminated and molded over EVA foam which makes it almost unaffected by water and allows for many hours of comfortable paddling no matter what the weather conditions are.

The revolutionary Point 65 AIR Seat is not only remarkably comfortable. It is also a high-performance seat that does not inhibit the paddler's movement, helping instead to find the perfect paddling position.

AIR seat including 4 Airbags in GTE versions of XO11 & XO13

Foldable AIR seat in Tequila! GTX & Tequila! GTX Angler

AIR backrest in Whisky 16, SeaCruiser, Martini GTX, Martini GTX Angler & Mercury GTX
